## INTRODUCTION

Madiba was inspired by the life of Africa's Hero "Nelson Mandela" . Which supported Equality and freedom. Madiba takes this a step further by creating an ecosystem that not only supports Equality and Freedom, but also Decentralized Wealth for the African community / Continent . Providing opportunities and innovations for African art lovers , gamers , tech lovers , entrepreneurs , educationist and every single African who dares to dream.

## PROBLEMS

- Security:** Lack of a secured and trust ecosystem to buy digital product and run smooth transaction.
- Art:** difficult in selling their art in nfts for artistes
- Lack of support:** lack of support to entrepreneurs ideas which cripples innovations and development, especially in Africa.
- Poor interactive and Immersive ecosystem for users.

## SOLUTION

-Madiba aims to create highly secured ecosystem with sophistication tech tools where members can perform a fast and secure transaction.

Madiba would be looking to support innovative ideas amongst entrepreneurs and crypto enthusiasts.

-Madiba is developing to create a nft market place where art lovers can easily convert their pictures to nfts and sell effortlessly to their audience.

-Madiba is developing to create an ecosystem where users like gamers and Nft collectors on our ecosystem(metaverse) can swiftly interact with one another and perform any related task easily.
